

## Techon7 and REYAX: A Powerful Partnership for IoT Solutions

**Techon7** is happy to announce a new strategic collaboration with **REYAX** Technology Corporation, LTD. This partnership brings together **Techon7's** expertise in display, touch, and embedded boards with **REYAX's** comprehensive range of wireless modules and IoT solutions.

**REYAX** invests significantly in research and development, constantly pushing the boundaries of wireless technology.

**Techon7's** partnership with **REYAX** allows **Techon7** to offer new and more comprehensive IoT solutions to customers. Whether it's smart cities, agriculture, logistics, or industrial automation, **Techon7** and **REYAX** are poised to transform the way we connect and communicate.

"This collaboration brings many new solutions for our customers and for the market," says **Techon7** Business Director, Lars Nordberg. "Together with **REYAX**, we aim to empower developers, engineers, and businesses by providing innovative solutions that drive progress."

**REYAX** Technology is a total solutions provider for electronics manufacturers. Their diversified product lines cover a wide spectrum of technologies, including:

- LoRa: Long Range, Low Power Wireless Communication
- Wi-Fi: Wireless Local Area Networking
- Cellular: 4G LTE and NB-IoT
- RFID: Radio Frequency Identification
- GNSS: Global Navigation Satellite Systems
- Bluetooth: Short-Range Wireless Communication
- U WB: Ultra-Wideband
- Cloud Integration: Enabling Seamless Data Exchange
- MQTT: Lightweight Messaging Protocol
